Warning, your Odoo database manager is not protected. To secure it, we have generated the following master password for it:

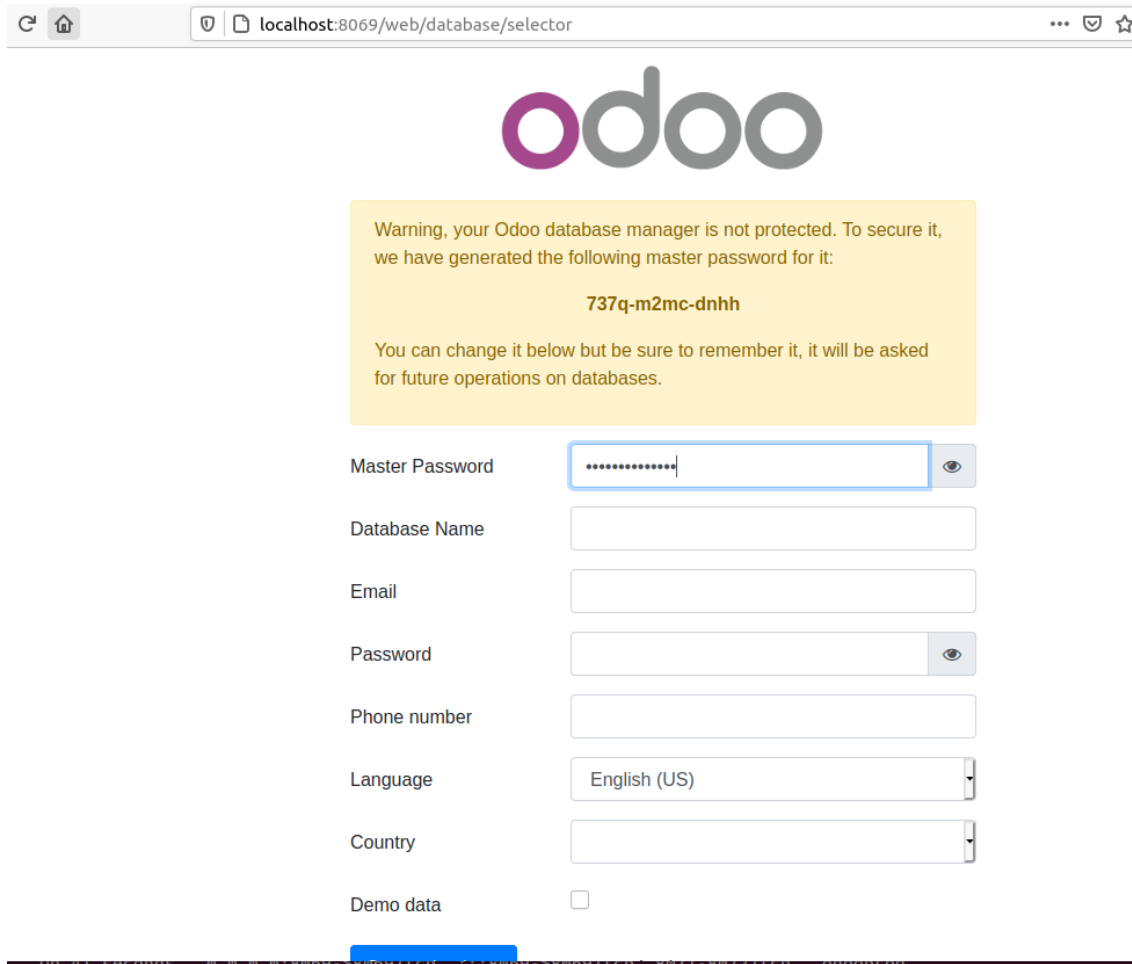

**k68c-umut-i9r4**

You can change it below but be sure to remember it, it will be asked for future operations on databases.

Master Password	<input type="password" value="....."/>	<input type="button" value="eye"/>
Database Name	<input type="text"/>	
Email	<input type="text"/>	
Password	<input type="password"/>	<input type="button" value="eye"/>
Phone number	<input type="text"/>	
Language	<input type="text" value="English (US)"/>	
Country	<input type="text"/>	
Demo data	<input type="checkbox"/>	
<input type="button" value="Create database"/> or restore a database		

## Instal·lació 2

Posada en marxa utilitzant la imatge de Docker Hub d'Odoo i utilitzant comandaments Docker

The screenshot shows a web browser window with the address bar displaying "localhost:8069/web/database/selector". The page features the Odoo logo at the top. A yellow warning box contains the text: "Warning, your Odoo database manager is not protected. To secure it, we have generated the following master password for it: 737q-m2mc-dnhh. You can change it below but be sure to remember it, it will be asked for future operations on databases." Below the warning, there are several input fields: "Master Password" (with a masked password and a toggle icon), "Database Name", "Email", "Password" (with a toggle icon), "Phone number", "Language" (set to "English (US)"), "Country", and a "Demo data" checkbox which is unchecked. A blue progress bar is visible at the bottom of the form.

localhost:8069/web/database/selector
